

What are HLHS 100% Sheets?

HLHS 100% Sheets are the new homework offering from Holly Lodge High School. They list information which is to be learned by heart, similar to learning of spellings and number bonds in primary school.

How often should my child do the sheets?

A homework schedule will be set for every student, this will involve some HLHS 100% Sheets and other forms of homework.

How do students use the sheets?

Please see the video. Students will use their sheet to **Look, Cover, Write, Check**. These techniques will be introduced to all students.

Why are you introducing these sheets?

Retrieval practice and habits of independent learning are two of the most well-evidenced factors in student achievement.

Holly Lodge 100% sheets provide:

- High-quality core knowledge that will help students to achieve more in their subjects,
- A clear and home-checkable process for study (look, cover, write, check),
- A clear method of accountability for students in lessons (quizzing and home work merits/demerits),
- A scalable habit that students can then extend to use with other resources and further learning.

When will the sheets be used?

The sheets will be introduced from September 2022, initially for some years and subjects.

Who needs to do the sheets?

Some years and subjects to begin with, aiming for all years and subjects eventually.
