### What is Wellcomm?

A speech and language development check for children aged 18 months to 3 years in Sandwell.

The screening usually takes between 20-40 minutes and is completed by playing games with your child. If we do identify a need then we can help support you and your child to help improve with our language sessions. You can book an appointment by calling one of our family hubs.

Please note: If your child attends nursery or school, they do not need a screening as they will do this within their setting.
